

## Wall art with heart.

Prairie Dance allows customers to personalize wall art with their newest collection—Designer Signs.

**What am I looking at?** The Designer Sign collection is the latest wall art collection from Prairie Dance. Each sign is made of lightweight steel and includes a built-in hanging mount. The designs are laser cut from the steel and then hand-finished in Prairie Dance's signature patina or brushed finish. Signs can then be personalized with one of five decorative inserts and decorative magnets.

**Oh, the possibilities...** Mix and Match from eight designs, two sizes and five backgrounds... or don't. Nursery, family room, 400 sq ft. apartment, or large luxury home? It doesn't matter. These pieces can be displayed on their own or easily combined to create an effortless gallery wall.

**Sweet, sweet sentiments.** The collection is composed of heartfelt, famous and not so famous passages as well as soft visual icons. Prairie Dance intentionally choose phrasing that resonates with new moms, newly weds, and grandparents making the collection a great option for consumers in search of unique gifts or home decor.
